

Easily integrated into your machines

Magelis XBT Small Panel range

Magelis XBT

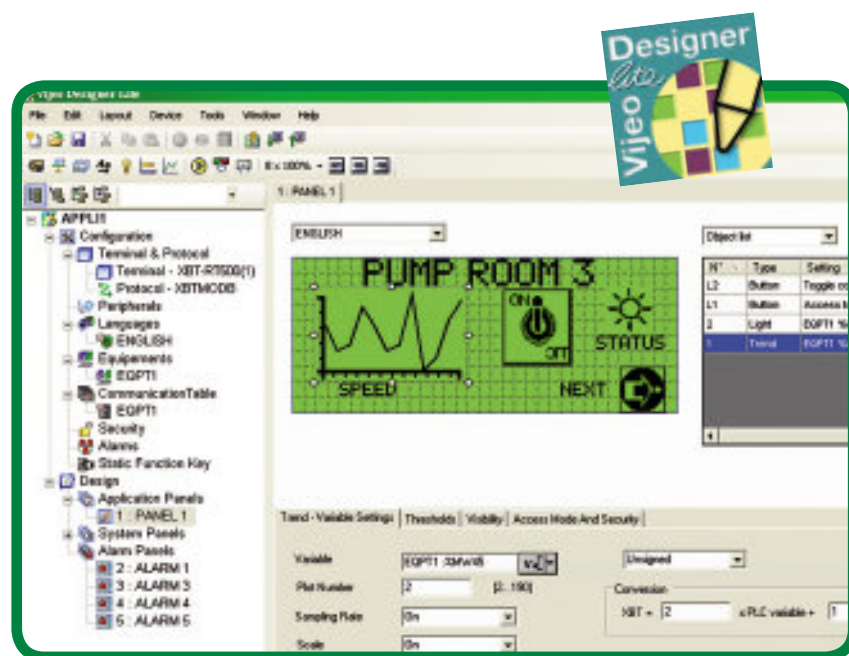

A generation of simple terminals

The Magelis XBT N, R, and RT Small Panel have been specifically designed to satisfy your requirements for compact size and ease of use for:

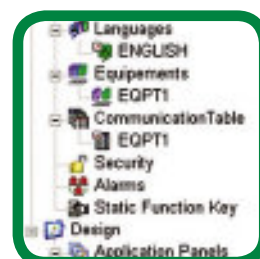

- Displaying text or semi-graphic messages
- Performing diagnostics and control operations
- Adjusting your control system equipment all with the added convenience of a touch screen and the flexibility of configurable, customizable keys.

Easy to configure

Thanks to the user-friendly Vijeo Designer Lite software, these terminals combine perfectly with other Schneider Electric equipment to offer you a complete automation solution, dedicated to simple or complex machines.
