Discursive Approaches to Sociopolitical Polarization and Conflict

Edited by **Laura Filardo-Llamas, Esperanza Morales-López and Alan Floyd**

Series: Routledge Research in Language and Communication

This collection explores the discursive strategies and linguistic resources underpinning conflict and polarization, taking a multidisciplinary approach to examine the ways in which conflict is constructed across a diverse range of contexts. Drawing on frameworks across such fields as linguistics, critical discourse analysis, rhetoric studies, and cognitive studies, the book offers new insights into the discursive polarization that permeates contemporary communicative interactions and the ways in which a better understanding of conflict and its origins might serve as a mechanism for providing new ways forward.
